EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 10, 13, 24, 29-32, 38 and 44 (drawn to non-elected claims in an election treated as w/o traverse)

In claim 62, before "first plates" in line 2, insert --cone-shaped--.

Allowable Subject Matter

2. Claims 1, 4-9, 11-12, 14-23, 25-28, 33-37, 39-43, 45-50 and 52-75 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The bulk of applicant's claims are drawn substantially to prior art embodiments including a capacitor, but can be distinguished from the prior art by capacitor claim elements drawn to "substantially" the shape of a "cone," in the context of other claim limitations, wherein a "cone" is defined by its plain meaning as a shape formed by a 360° rotation of a right triangle around its base.

The search of prior art was limited to a search for substantially cone-shaped parts of a capacitor (such as the claimed "first plate"), with the term "cone" being interpreted by the dictionary definition, and with text search strategy limited to documents including terms like "conical," "conic," and "cone," for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
